

Raysun PSF3 Fluid

Supreme Performance Power Steering Fluid

Raysun PSF3 Fluid is a supreme performance power steering fluid specially engineered for use in Korean, Japanese, vehicles specially Hyundai and KIA. This fluid is formulated with high quality base fluid and advanced additive technology to provide thermal and oxidation stability at high temperature, friction durability and wear protection.

Advantages

- Eliminate power steering noises and whines
- Outstanding thermo-oxidative stability, friction durability, wear protection and shear stability
- Exceptional viscosity profile, improved torque transfer and low viscosity of this oil help in improving fuel economy
- Excellent low temperature fluidity leads to easy pumping in the hydraulic circuits
- Inhibit fluid foaming and oxidation
- Excellent seal compatibility ensures longer seal life and reduces possibility of oil leakage

Applications

- Recommended for use in power steering system according to PSF-3 engineering standard

Raysun PSF3 Fluid

Typical Values	ASTM Method	Specification
7.1	D 445	Viscosity @ 100 °C, cSt.
195	D 2270	Viscosity Index
220	D 92	Flash Point, °C
-51	D 97	Pour Point, °C
16800	D 2983	Brookfield Viscosity, @-40 °C, cP
Nil	D 892	Foam Characteristics
1a	D 130	Copper Corrosion

Note: "All of the results are typical and the results of each batch are presented in the COA sheet."
